## PRAIRIE DOG FINAL REFLECTION

1. What did you learn during our focus on prairie dogs?

2. What topics from our Biology class relate to the prairie dogs across the road?  
*There can be multiple answers for this question. Try to think of at least a few connections.*

3. Do you think there is value in spending one week on this topic? Why or why not? Should future classes carry on with this study? Should we change anything about it?
